

"Water Cycle Boogie"

(Sing to the tune of "Skip to My Lou")

Sun a shining from its birth,
Dries the water, dries the earth.
A **YELLOW** bead shows its worth,
Water cycle boogie.

Evaporation, water's gone,
To a vapor, won't take long.
Choose a **CLEAR** bead, can't go wrong,
Water cycle boogie.

Clouds are forming drop by drop.
Vapor moving, will not stop.
WHITE bead shows us what's on top,
Water cycle boogie.

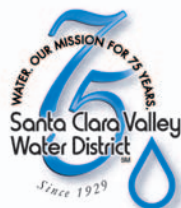

Condensation, water's here
No more vapor, give a cheer.
A **LIGHT BLUE** bead, like a tear,
Water cycle boogie.

Precipitation, rain and snow,
Shows us water on the go.
A **DARK BLUE** bead, don't you know,
Water cycle boogie.

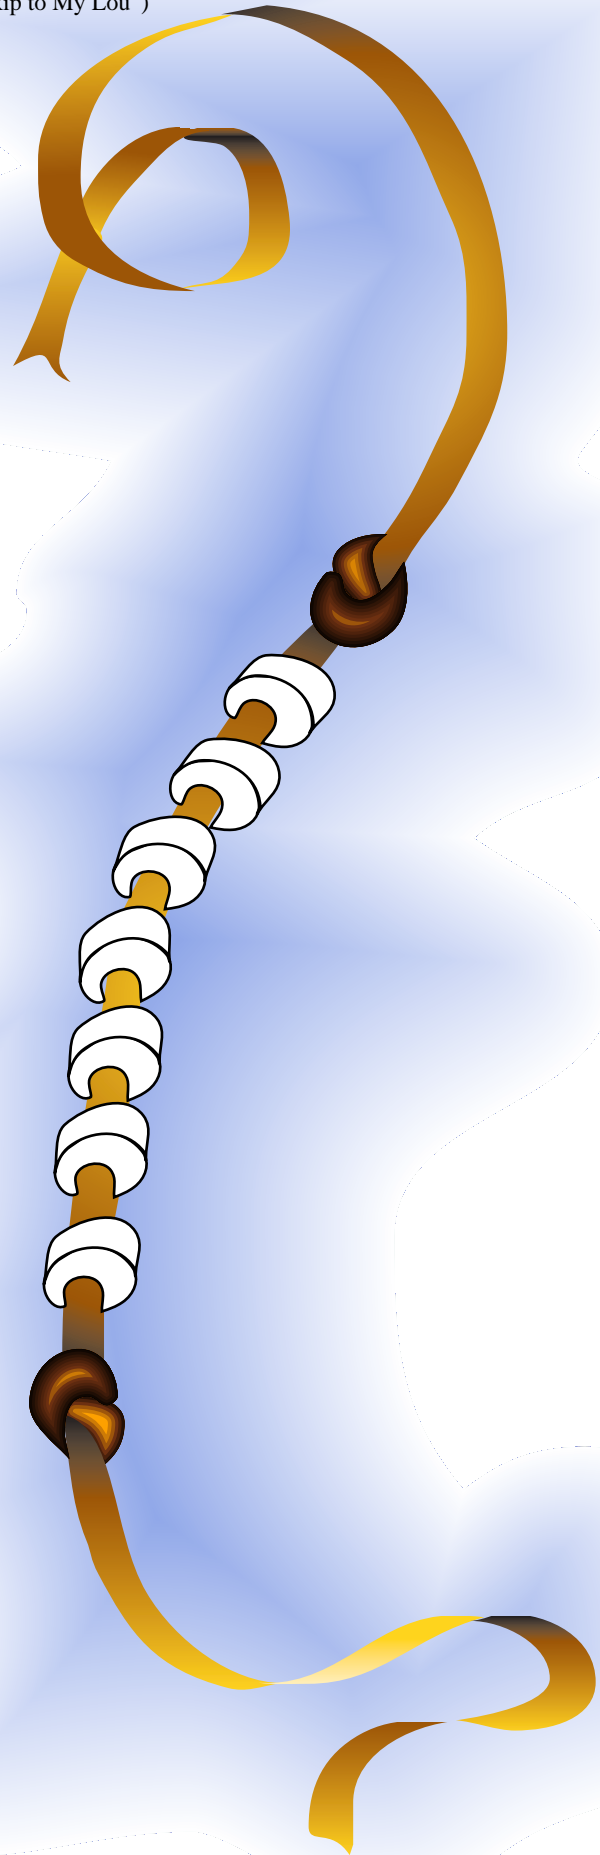

See the water moving fast,
Runoff on the ground at last.
BROWN bead also joins the cast,
Water cycle boogie.

Transpiration from a tree.
Water vapor you can't see.
GREEN bead shows it all to me.
Water cycle boogie.

The Water Cycle

TRUE/FALSE

- ___ A. All water on earth has been here since the planet was formed.
- ___ B. In all that time, no more water has been added to the earth's supply.
- ___ C. Water is constantly being cycled between the atmosphere, the ocean and land.
- ___ D. This constant cycling is called the WATER CYCLE.
- ___ E. Snow and ice changing into water vapor in the air without first melting into water is called sublimation.

MATCH THE WORD WITH THE MEANING

- | | |
|--|-------------------|
| 1. A visible mass of condensed watery vapor floating in the air. | ___ EVAPORATION |
| 2. Precipitation that travels over the soil surface to the nearest stream channel. | ___ CLOUD |
| 3. The release of water from plant leaves. | ___ CONDENSATION |
| 4. Water changes from a liquid to a gas or vapor; the opposite of condensation. | ___ PRECIPITATION |
| 5. Water released from clouds in the form of rain, snow, sleet or hail. | ___ RUNOFF |
| 6. Water vapor changes from a gas to a liquid; the opposite of evaporation. | ___ TRANSPIRATION |
