

## **NISD Technology Integration Project Planning & Assessment (TIPPA)**

(Access to TIPPA files are restricted to authorized NISD employees through **intranet only** user identification and password log-in).

As described in Technology Department informational pages:

“The TIPPA website materials will assist classroom teachers in effectively planning, delivering and evaluating technology-infused projects which will engage and challenge students in targeted academic objectives.

“The TIPPA rubric takes into account cognitive theories and differentiated instruction, and identifies five key components in developing and assessing technology-infused lessons to support student learning:

Curricular Connections,  
Technology Standards,  
Student Engagement,  
Student Challenge,  
Student Assessment.”
